Lites™

To adjust black stripe location, remove bulb, use included hex wrench to loosen both set screws 1/2 turn. Adjust base to body as necessary being careful not to break wires inside base. If wires in base resist turning one direction, rotate base opposite direction to desired angle. Tighten set screws and install bulb with black stripe up.

If high & low beams are backwards, loosen set screws as described above, and rotate base a half circle (180 degrees), tighten set screws and install bulb with black stripe up.
